

Sign Permit Applications

Sign Permit requests are reviewed by the Planning Department to determine conformance with the City's Sign Ordinance.

Many sign applications can be approved over-the counter. Complex commercial signs may require a five day processing period, dependent upon the number of similar requests before the City. If the sign has electrical and/or structural requirements, a building or electrical permit may be required. When the Planning Department has approved the sign permit application, the sign and/or building permits will be prepared and the applicant is notified.
